🎓 EDUCATION

Georgia Institute of Technology
📅 05/2020 - 12/2023 (Expected)
📍 Atlanta, GA

Bachelor's of Science
Major: Computer Science
GPA: 3.07

PROJECTS

🏆 Photo Gallery (Infrastructure as a Service)

- Created a photo gallery app for Cloud Computing course project
- Implemented for both SQL and NoSQL photo gallery web app with AWS IaaS (Infrastructure as a Service)
- Used Python, Flask, AWS(EC2, SES, S3, DynamoDB, MYSQL(RDS))

🏆 Photo Gallery (Platform as a Service)

- Created a photo gallery app for Cloud Computing course project
- Implemented serverless photo gallery web app with AWS PaaS (Platform as a Service)
- Used Javscript, JQuery, Python, AWS(API-Gateway, Lambda, S3, Cognito, DynamoDB)

🏆 Drone Grocery Delivery

- Created a Drone Grocery Delivery web app for Database course project
- My role was setting up Redux and building both client and server side of Login, Register, and Chain-manager's page
- Used Javascript, React.js, Redux, Node.js, Express, and Mysql

🏆 Dungeon Crawler

- Created a Dungeon Crawler Game for Object Oriented Design course project
- My role was building most of User Interfaces and setting interaction between a player and monsters
- This project was built with pure JavaFX

⚙ LEADERSHIP

📅 12/2015 - 09/2017
📍 Korean Army | Seoul, South Korea   **Squad Leader of Combat Medic**

- Assigned squad members specific roles to complete mission
- Supported doctor's surgery and treated injured soldiers
- Gain patience and the mindset of a leader

⚙ CERTIFICATE

- 🏆 Algoexpert Certificate of Completion
- 🏆 Node with React: Fullstack Web Development
- 🏆 The Complete IOS App Development Bootcamp
